

## **Computer Network Engineer**

### **Bakersfield, CA**

Grapevine MSP Technology Services is looking for Computer And Network Technicians to join our team! You will help support and maintain business computers, servers, and networks. Must be able to design, implement, manage, computer networks in Windows server environments. Must know and be able to demonstrate knowledge of computer networking, network security, standard networking protocols, and Windows server technologies.

#### What Makes for a Great Candidate?

- \* A+, NET+, Security+ Certifications
- \* Microsoft Certified Professional (MCP)
- \* Microsoft Certified Solutions Expert (MCSE)
- \* Cisco Certified Network Administrator (CCNA)
- \* 2+ year experience in computer network management
- \* Strong computer skills and intermediate knowledge in routers, layer 2/3 switches, and other networking devices
- \* Advanced knowledge of all Microsoft Workstation Operating Systems and Applications (Exchange 2007+, Windows 7, Server 2008+)
- \* People-oriented, team player that mixes well with colleagues and clients
- \* Consistent and steady work ethic
- \* Ability to reconcile fact from emotion and make decisions accordingly

#### Why this is a Great Opportunity:

- \* A focus on industry specific training that will ensure continued technical growth from Day 1
- \* Leading edge service coordination and automation
- \* Documented SOPs so that you don't have to spend your time reinventing the wheel or figure out things should be done
- \* Competitive salary and benefits

Grapevine MSP Technology Services is a 2017 INC 5000 Award Recipient and also ranked on MSPMentor Global 501 List of Top Managed IT Service Companies in the world.

#### Responsibilities:

- Analyze, troubleshoot, and evaluate existing wired and wireless network systems
- Computer Hardware and Software Troubleshooting
- Handle repairs and exchanges of defective devices

- Collaborate on the improvement of network design and connectivity
- Perform routine network maintenance
- Maintain inventory of network electronics

Additional Qualifications:

- Previous experience in IT (Preferably 2 years)
- Fundamental knowledge of networking, hardware, and software
- Ability to prioritize and multitask
- Strong troubleshooting and critical thinking skills
- Deadline and detail-oriented
